GENERAL: It is the intent of this specification to describe the minimum requirements for the purchase of vehicles. For the purposes of this specification, the term vehicle shall include all items listed in the Invitation to Bid (administrative vehicles, light trucks, cab/chassis, SUVs and Vans as applicable). All parts, items, or features not specifically mentioned, which are necessary or which are regularly furnished to provide a complete unit, shall be furnished by the successful bidder at the bid price and shall conform in strength and quality of material and workmanship to that usually provided by the practice indicated in this specification.

DELIVERY: The price of the vehicle shall include delivery to the participating agency. Delivery is to be within 60 – 90 days for vehicles (compact, mid-size and full-size) and 90-120 days after receipt of order for the light trucks, vans, etc. **Exception: It is expressly understood that any vehicle/truck requiring a special paint order; i.e. other than manufacturer's standard colors, delivery can take up to an additional 6 - 12 months.** All equipment shall be completely inspected and serviced by the dealer prior to delivery. Upon receipt, participating agencies shall make an inspection and, if found not to be in accordance with these specifications, the dealer shall, upon notification, pick up and deliver the vehicle again after it has met the specifications.

Equipment being delivered shall be accompanied by a delivery slip that has been prepared in duplicate. The original will be returned to the vendor and the copy retained by the respective participating agency. A Tax Exemption Certificate, a completed *Certificate of Origin, and an application for Title/Registration shall accompany each vehicle **unless the agency has specified they want vendor to title/register vehicle. Note: WHERE THIS OPTION IS CHOSEN, DO NOT INCLUDE THE COST OF EITHER, RATHER WORK WITH THE AGENCY TO DETERMINE IF IT IS A PLATE TRANSFER, NEW PLATE, ETC. AND PROVIDE THE COST OF TITLE/REGISTRATION AT THAT TIME.** The documents specified under this section shall list the appropriate participating agency as the owner.

For Waukesha County, vehicles shall be titled to Waukesha County, 515 W. Moreland Blvd., Waukesha, WI 53188.

*Due to the time lapse between the time the vehicle is received and placed into service, we are requesting that the date be left blank. Each agency will put the date the vehicle is placed into service.

FREIGHT INCREASE: If there is a freight increase prior to delivery of the units, the additional increase must be at the dealer's expense.

PRICING: All pricing is to be provided on the pricing document included at our website (<https://purchasing.waukeshacounty.gov>). If you are unable to access the website, please contact our office at 262-548-7888 for a hard copy. SPECIAL CONDITIONS: **Purchases by any agency participating in this process are contingent upon the appropriation of funds by the governing body of the participating agency. Only those agencies listed in the bid should be allowed to receive the pricing quoted by vendors. NO PIGGYBACKING SHOULD BE ALLOWED.**

AWARD: Award will be made by line item to the lowest responsive and responsible bidder who can comply with the applicable base specifications and the specified delivery requirements. **Note: Award will be made on the base cost of the vehicle plus the specified options included in each line item. Agencies may or may not request additional options from the successful vendor after award has been made based on the Cost Plus Percentage quoted. If the vendor is unable to provide the options or color as required by a specific agency, that agency reserves the right to go to the next lowest bidder.** Each participating agency reserves the right to hold a pre-award conference prior to issuing a contract and/or purchase order.

It is expressly understood that certain option choices such as extended cabs, extended vans, etc. will result in changes to the vehicle such as model, wheelbase, tires, etc. Such changes will not negate the vendor's compliance to the vehicle class bid/specifications.

UNSUITABLE EQUIPMENT: Bids will not be considered for vehicles that have previously failed to perform satisfactorily or from contractors or subcontractors who have a history of performance problems with the applicable participating agency.

BID MODIFICATIONS: The Waukesha County Purchasing Division, on behalf of VALUE shall have the sole authority to modify this bid.

MANUFACTURER'S WARRANTY: The successful bidder may be required to furnish a warranty by the manufacturer that the equipment bid on is suitable for the service intended in accordance with the specifications defined. The vendor shall furnish each participating agency the same warranty as offered to fleet customers, and shall agree to replace and install without charge, within the scope of the warranty, any defective parts or any parts that are determined by the participating agencies not to be suitable for the service intended.

The warranty period shall go into effect at the time the vehicle is placed into service by each participating agency. **VENDORS ARE TO INCLUDE A COMPLETE WARRANTY STATEMENT WITH THEIR BID RESPONSE.**

SERVICE FACILITIES: In order for each participating agency to be assured of being able to maintain and repair the

vehicles purchased, there shall be a service facility, with a reasonable stock of repair parts for the equipment bid on, within the participating agency's county or adjoining counties. Note: The successful bidder does not have to be located within the participating agency's county as long as there is an authorized dealer in same or in an adjoining County.

NEW CAR CHECKUP AND SERVICE FOR ALL CARS: Prior to the delivery, the vehicle must be completely serviced by the successful bidder (dealer) in accordance with the manufacturer's standard new car make-ready recommendations.

Crankcase, differential, and transmission must be filled to capacity as recommended by the manufacturer. Each vehicle shall contain a pre-delivery check sheet showing what operations have been performed on the vehicle by the selling dealer. Vehicles are to be clean, and all stickers are to be removed from glass prior to delivery with the exception of any sticker required by law (Manufacturer's suggested retail price label).

Factory pre-delivery will not be acceptable. Vehicles showing a lack of proper dealer pre-delivery service will not be accepted and will be returned to the selling dealer by that dealer's personnel.

DEALERSHIP EMBLEMS/LOGOS: The vendor shall not install on the vehicle, any logos, nameplates or stickers denoting the name of the company or dealership that may be considered as advertising. Failure to comply with this requirement shall result in the dealership being given the option to remove same, or reimburse each participating agency for removal and restoration, if needed, at prevailing participating agency wages per hour for Automotive Body Mechanic/Painter.

INTERCHANGE ABILITY: All similar equipment purchased under one contract shall have interchangeable component parts, e.g., distributor, axles, wheels, accessories.

MODEL: Vehicles defined in this document shall be the latest models offered. Equipment/vehicles shall be new and unused and not previously titled.

FACTORY INSTALLATION: Items that are available from the factory must be factory installed. If factory installation of an item is not available to the dealer and the dealer is making a dealer modification in order to meet the specification, it must be clearly noted in his response.

SUBCONTRACTORS: The contractor shall be fully responsible for the work of all subcontractors utilized. Contractor will be responsible for assuring that all work is performed in accordance with all specifications and in compliance with manufacturer's recommendations and procedures. Such work includes but is not limited to installation of lights, spotlights, etc.

The contractor shall also assume full warranty responsibility for all work performed or for parts furnished by their subcontractors.

VEHICLE ORDERS: **Confirmation of vehicle order must be sent to the agency within 10 days after receipt.** Vendor must include an order number and a website address that the agency can use to check order status.

PAYMENT: Payment will be made by each participating agency within 30 days after acceptance of vehicle and receipt of a properly documented invoice. **Note: Vendors may invoice for the vehicle and OEM equipment once they have delivered the vehicle to the agency. A separate invoice for after-market equipment shall be sent once the completed vehicle has been delivered to the agency.**

Invoices must be submitted in duplicate. **In order to avoid a delay in payment, the original invoice is to be mailed to the "BILL TO" address listed on each agency's purchase order.** The duplicate invoice is to be delivered with the vehicle, certificate of origin and title registration. **Note: The Participating agency must have a clear title or no payment will be made.**

Vendors who wish to quote a payment for early discount may do so. Any early payment discounts **will be** considered for award purposes.

I. BASE VEHICLE REQUIREMENTS: All vehicles ordered under this bid must include all standard equipment as stated

in retail vehicle brochures and sales catalogs, plus the standard accessory items stated herein.

There are to be no deducts unless specified; i.e. **Do Not** delete standard features in favor of a cheaper non-standard package and/or lower bid price. For example, if dual tanks are standard, you may not delete one tank to lower your bid price. **EXCEPTION:** A standard feature may be deleted in order to comply with an option requirement or available deletes in an option package may be taken. **Examples: If carpet is standard and agency wants vinyl flooring, the carpet delete would be acceptable. If cruise is requested but requires that a higher level package with power windows that is not requested, power windows should be deleted for credit if available.**

Additionally, **please note within the comments section of the pricing document your inability to comply due to conflicting requirements.** For example, if an agency has requested Rear Wheel Drive and Limited Slip but the limited slip is not available, it should be noted in the comments section "Limited slip n/a with rear wheel drive".

With respect to tires, the tires must be of the same manufacturer and design for each individual vehicle.
