

Six-Bay Tri-Chemistry Battery Charger HGM3006-CHG

Rugged Charger for the XTS3000, XTS5000 and HT1000 Series Radio Batteries.

The HGM3006-CHG is a versatile and dependable radio-drop in or battery-only multibay charger for the XTS3000, XTS5000 and HT1000 Series Radio Batteries.

The charger is designed for desktop or wall mounting without cumbersome bracketing.

With the Patriot six bay charger you can keep all your radio batteries (new, old, nickel and lithium) fresh and fully charged.

Battery Features:

- Tri-chemistry charger allows safe and rapid charging of approved lithium ion, nickel cadmium and nickel metal hydride rechargeable battery packs.
- Rapidly charges batteries in 2.5 to 5 hours (depending on battery capacity).
- Automatic maintenance charging of nickel cadmium and nickel metal hydride batteries when rapid charging is complete.
- Honeywell® Batteries and OEM battery compatible including the IMPRES™ series of radio batteries for the XTS3000, XTS5000 and the HT1000 radio models.
- Charges battery alone, or while attached to radio (operating or non-operating). Charger is designed to be user friendly, with tri-color LED charge indicators.
- UL approved external power supply (100-240V AC, 50/60 Hz or direct 24V DC operation).
- Versatile, dependable and rugged, designed for desktop or wall mounting without cumbersome bracketing.
- Keep all your radio batteries - new, old, nickel, lithium - fresh and fully charged with a Patriot Tri-Chemistry Charger.

Dimensions:

Length: 18 Inches (45.7 cm)
Width: 5 Inches (12.7 cm)
Height: 3.5 Inches (8.9 cm)
