Sherwin Industries, Inc.

August 29, 2008

Mr. Robert Barwick
City of West Allis
7525 West Greenfield Avenue
Room G08
West Allis, WI 53214

Dear Mr. Barwick:

As all of us are painfully aware, there are unprecedented increases in costs affecting all industrial and consumer markets today. A significant part of these increases are being driven by the soaring cost of crude oil, the higher energy costs and a weak US dollar which affects literally every industry and market in the world. The effect on CrafcO, Inc. is that these increasing costs and periodic shortages of key raw materials have forced them to change the way they quote prices. CrafcO has withdrawn all quotations to Sherwin Industries, Inc. effective immediately.

This letter serves as written notification that Sherwin Industries, Inc. is no longer able to supply crack sealant under the price, terms and conditions originally submitted in bids earlier this year. As you are aware, the costs of all petroleum products have increased far beyond anyone's expectations. Additionally, CrafcO is experiencing supply shortages on asphalt and polymer with their suppliers instituting allocations and withdrawal from supply agreements. With the current market situation, Sherwin Industries, Inc. cannot afford to supply crack sealant to our customers at the agreed upon price.

CrafcO, Inc. will re-quote as requested based on the current market condition and availability; however, the duration will rarely exceed thirty days. I apologize for this inconvenience, but with the current turbulent situation in our market, we are left with no choice but to make this change. As always, we value your business and appreciate your patience as we continue to strive to provide service, quality and value in the year ahead.

Cordially,

Sherwin Industries, Inc.

Randy S. Jackson
Vice President
